Nope, I mean the original 1422 primacy application from the 1980s.

**Subject:** Official Class VI Primacy Application

The attached North Dakota 1422 UIC program application for Class VI primacy enforcement responsibility is officially submitted for USEPA approval. The North Dakota Class VI primacy application includes:

- (1) Letter from the Governor of the State requesting program approval;
- (2) Class VI 1422 UIC program description;
- (3) Attorney General's statement;
- (4) Memorandum of Agreement (MOA) with the Regional Administrator;

In addition to the attached MOA, two original copies of the MOA have been signed by Lynn Helms, Director of the North Dakota Department of Mineral Resources, Oil and Gas Division and mailed to EPA Region 8 for signature by Shaun McGrath, Regional Administrator. Upon signing the MOA, one copy is to be kept by EPA for its records and the second signed copy is to be mailed back to the North Dakota Department of Mineral Resources, Oil and Gas Division. The MOA signed by both parties will replace the MOA in this application.

- (5) Memorandum of Understanding with the North Dakota Department of Health; and
- (6) Copies of all applicable State statutes and regulations.

The North Dakota Class VI primacy application contains all the elements required for State UIC program revision. I respectfully request a timely EPA review and approval of the North Dakota Class VI primacy application.

Sincerely,

Kevin C. Connors

CCS Supervisor

Oil and Gas Division
